JIHAN BHAGAT

Cyber Security Enthusiast Robotics & Automation Innovator | Bridging Hardware & Software Passionate About AII, IoT & Future Tech

Ahmedabad, Gujarat, India

Summary

I am passionate about leveraging technology and innovation to solve real-world problems. With expertise in IoT, AI, automation, and cybersecurity, I focus on building intelligent systems that bridge hardware and software seamlessly.

I have hands-on experience with ESP32-based projects, sensor integration, Android app development, Python applications, and Firebase solutions. My work ranges from creating smart irrigation systems and plant disease detection apps to AI-powered personal assistants and professional dashboards.

Driven by curiosity and a problem-solving mindset, I enjoy turning complex ideas into practical solutions while ensuring scalability and security. I am also keen on ethical hacking, data recovery, and system optimization, applying these skills to make projects robust and user-friendly.

I am always open to collaborations in AI, IoT, cybersecurity, and innovative product development. My goal is to create technology solutions that are efficient, secure, and impactful, making a difference in both professional and everyday applications.

Education

Sal Institute Of Diploma Studies

Diploma , Computer Science · (August 2025 - August 2028)

GIIS Ahmedabad

· (May 2015 - May 2025)
